

Chaos recorded the birth of a new science. This science offers a way of seeing order, and pattern, where formerly only, random, the erratic, the unpredictable, - **IN SHORT** only the chaotic- had been observed. In the words of Douglas Hofstradter "It turns out that an **eerie** type of chaos can lurk just behind facade of order - and yet, deep **INSIDE** the chaos lurks an even **eerier** type of order" San Francisco Chronicle

"What's Behind CHAOS ?"

Random, erratic, unpredictable events have an order to them in most cases, yet there is something deeper in addition to seeing or recognizing a pattern to the event or action. Take for instance the weather, earthquakes, stock market trends, accidents, and other events what have been thought to be random events actually have a group of people that use chemicals and technology to control such events and occurrences. The "World Rulers" can make events look random or make patterns to cover other events that happen in nature and society. An earthquake may stop the transfer of electric funding to a bank or cause an insurance carrier or underwriter to loose money. The fact that a heavy frost that comes around every now and then may destroy a citrus crop in Florida and cause orange comodities and futures to sky rocket. A computers speed, groth rate of a crop or the stock market ups and downs can be controlled by a group "MIND CONTROL EXPERTS"

In reference to the words of Douglass Hofstradter. Deep **INSIDE** is the **ORDER** of what rules the people with **MIND CONTROL** as well as the **WORLD'S** (NWO) natural phenomenon such as Meteorology, Science, Physics and Medicine. The "People Controllers" affect almost all actions of the world, it's people , animals, economy, evolution, materials, computers math and what seem to be naturally occurring events so it is unclear as to what patterns truly exists in nature as they can easily be swayed from the truth. **TOTAL CONTROL** by **MAN** on the "Other Side". You may look for patterns, but they may evade you or the "Other Side" may create patterns so they can be recognized.

Once you understand that events random or erratic have an additional factor that is overlooked in the book **Chaos**. You will determine that many theories will be dismissed or explained. The factor that is not included in James Gleick's book is the "**INSIDE**" or "**PEOPLE CONTROLLERS**".
