About Thrush...***

THRUSH : a thrasher, a song bird

THRUSH : a brand of automotive mufflers

No muff too tuff for thrush!

Check Your Tongue

It's not what they say it is!

WE ARE MADE SICK FROM BIRTH

THRUSH

An inflammatory disease affecting mouth, tongue and lips. Characterized by a milky white coating, puss, yeast. Considered a fungal infection (Candida Albicans). Commonly found IN everyone's body. Often overlooked and misunderstood by the medical community. What you have not been told by your doctor is THRUSH is part of an elaborate systemic control system to adversely affect your physical & mental health. One of the first things your doctor says to you is stick out your tongue and say AH! . When he does tell him I am tired of the lies. Take Control.

HEAD TO TOE

Korrekt "The Truth"

IT'S IN YOUR SKIN
